## SKILLS

---

- **Programming Languages:** Expertise in JavaScript and TypeScript for interactive web applications.
- **Libraries & Frameworks:** Proficient in React.js and Next.js for optimized UI development and performance.
- **Web Development:** Mastered HTML5, CSS3, Tailwind CSS, and Bootstrap for responsive designs.
- **Debugging:** Unit & integration tests, improving application stability and minimizing debugging time.
- **Version Control:** Code Management, Enabling Tracking of Code Changes & Facilitating Project Coordination.
- **Performance Optimization:** Analyzed Front-End Performance Metrics, ensuring Refined Loading Times.

## WORK EXPERIENCE

---

### Front End Developer

January 2022 – October 2022

*Deloitte Digital, India*

- Directed the complete overhaul of an application's interface, integrating responsive design principles and optimizing component structures, which increased user engagement by 30% and provided a seamless experience.
- Orchestrated the migration to React 18, communicating with teams to leverage hooks and components, improving performance by 40% and resulting in faster load times and enhanced responsiveness in diverse environments.
- Streamlined navigation and revamped load speeds by implementing code-splitting and asset consolidation elevating customer satisfaction ratings by up to 25% and enhancing interactions for users across all platforms.
- Implemented an automated testing suite with Jest and React Testing Library, improving code coverage by 40% and reducing errors through unit tests and snapshot testing, leading to a more robust and dependable application.

### Junior Front End Developer

June 2021 – December 2021

*Madras Global, India*

- Engineered web interfaces tailored to user needs for over 15 clients, achieving a remarkable 35% boost in client satisfaction through design, usability, and targeted experience enhancements that addressed specific client goals.
- Steered a 40% increase in engagement rates by enhancing content visibility through refined UI components and interactive design, leading to higher client retention and strengthening relationships with valued customers.
- Initiated user interface components that improved production timelines across more than 15 high-impact projects, ensuring timely delivery and contributing to successful project outcomes that met client expectations.
- Collaborated with cross-functional teams on ten projects, enhancing project success rates by 30% through detailed design iterations, holistic feedback sessions, & a focus on aligning user experience with client expectations.

### Tech Support Engineer

September 2019 – March 2020

*Zoho Corporation Ltd., India*

- Installed and configured software systems to ensure seamless operations, resulting in a 40% reduction in downtime and improved system reliability across the organization, thereby enhancing overall productivity levels for all users.
- Supervised and calibrated network systems, implementing load balancing and addressing 95% of service requests within one hour, ensuring availability and user satisfaction through maintenance and accelerated troubleshooting.
- Enhanced system performance to provide a seamless user experience for over 300 end-users and stakeholders by optimizing server configurations and reducing response times for operations and services, with focus on reliability.
- Created technical documentation to facilitate knowledge sharing, standardizing troubleshooting protocols and reducing the time needed for issue resolution by 25%, enhancing team efficiency and improving service quality.

## PROJECTS

---

### ClosetConnect - Full Stack Developer

- Developed a smart wardrobe management app that empowers over 1,000 users to organize clothing and plan outfits, enhancing daily fashion choices and overall style coordination in a user-friendly manner.
- Leveraged technologies including React, Next.js, Node.js, MongoDB, REST APIs, Vercel, and Java Spring Boot to create a scalable application that supports interactions and facilitates real-time data management.

## EDUCATION

---

### Conestoga College, Waterloo

*PG Diploma in Computer Application Development*

Ontario, Canada

January 2024 - August 2024

### Conestoga College, Waterloo

*PG Diploma in Web Development and Internet Applications*

Ontario, Canada

January 2023 - August 2023

### A.I.T, Visvesvaraya Technological University

*Bachelor of Computer Science Engineering*

Chikkamagaluru, India

August 2015 - June 2019
